

DISCOVERY: A TEAM SPORT

Improving team collaboration during product
discovery for new software

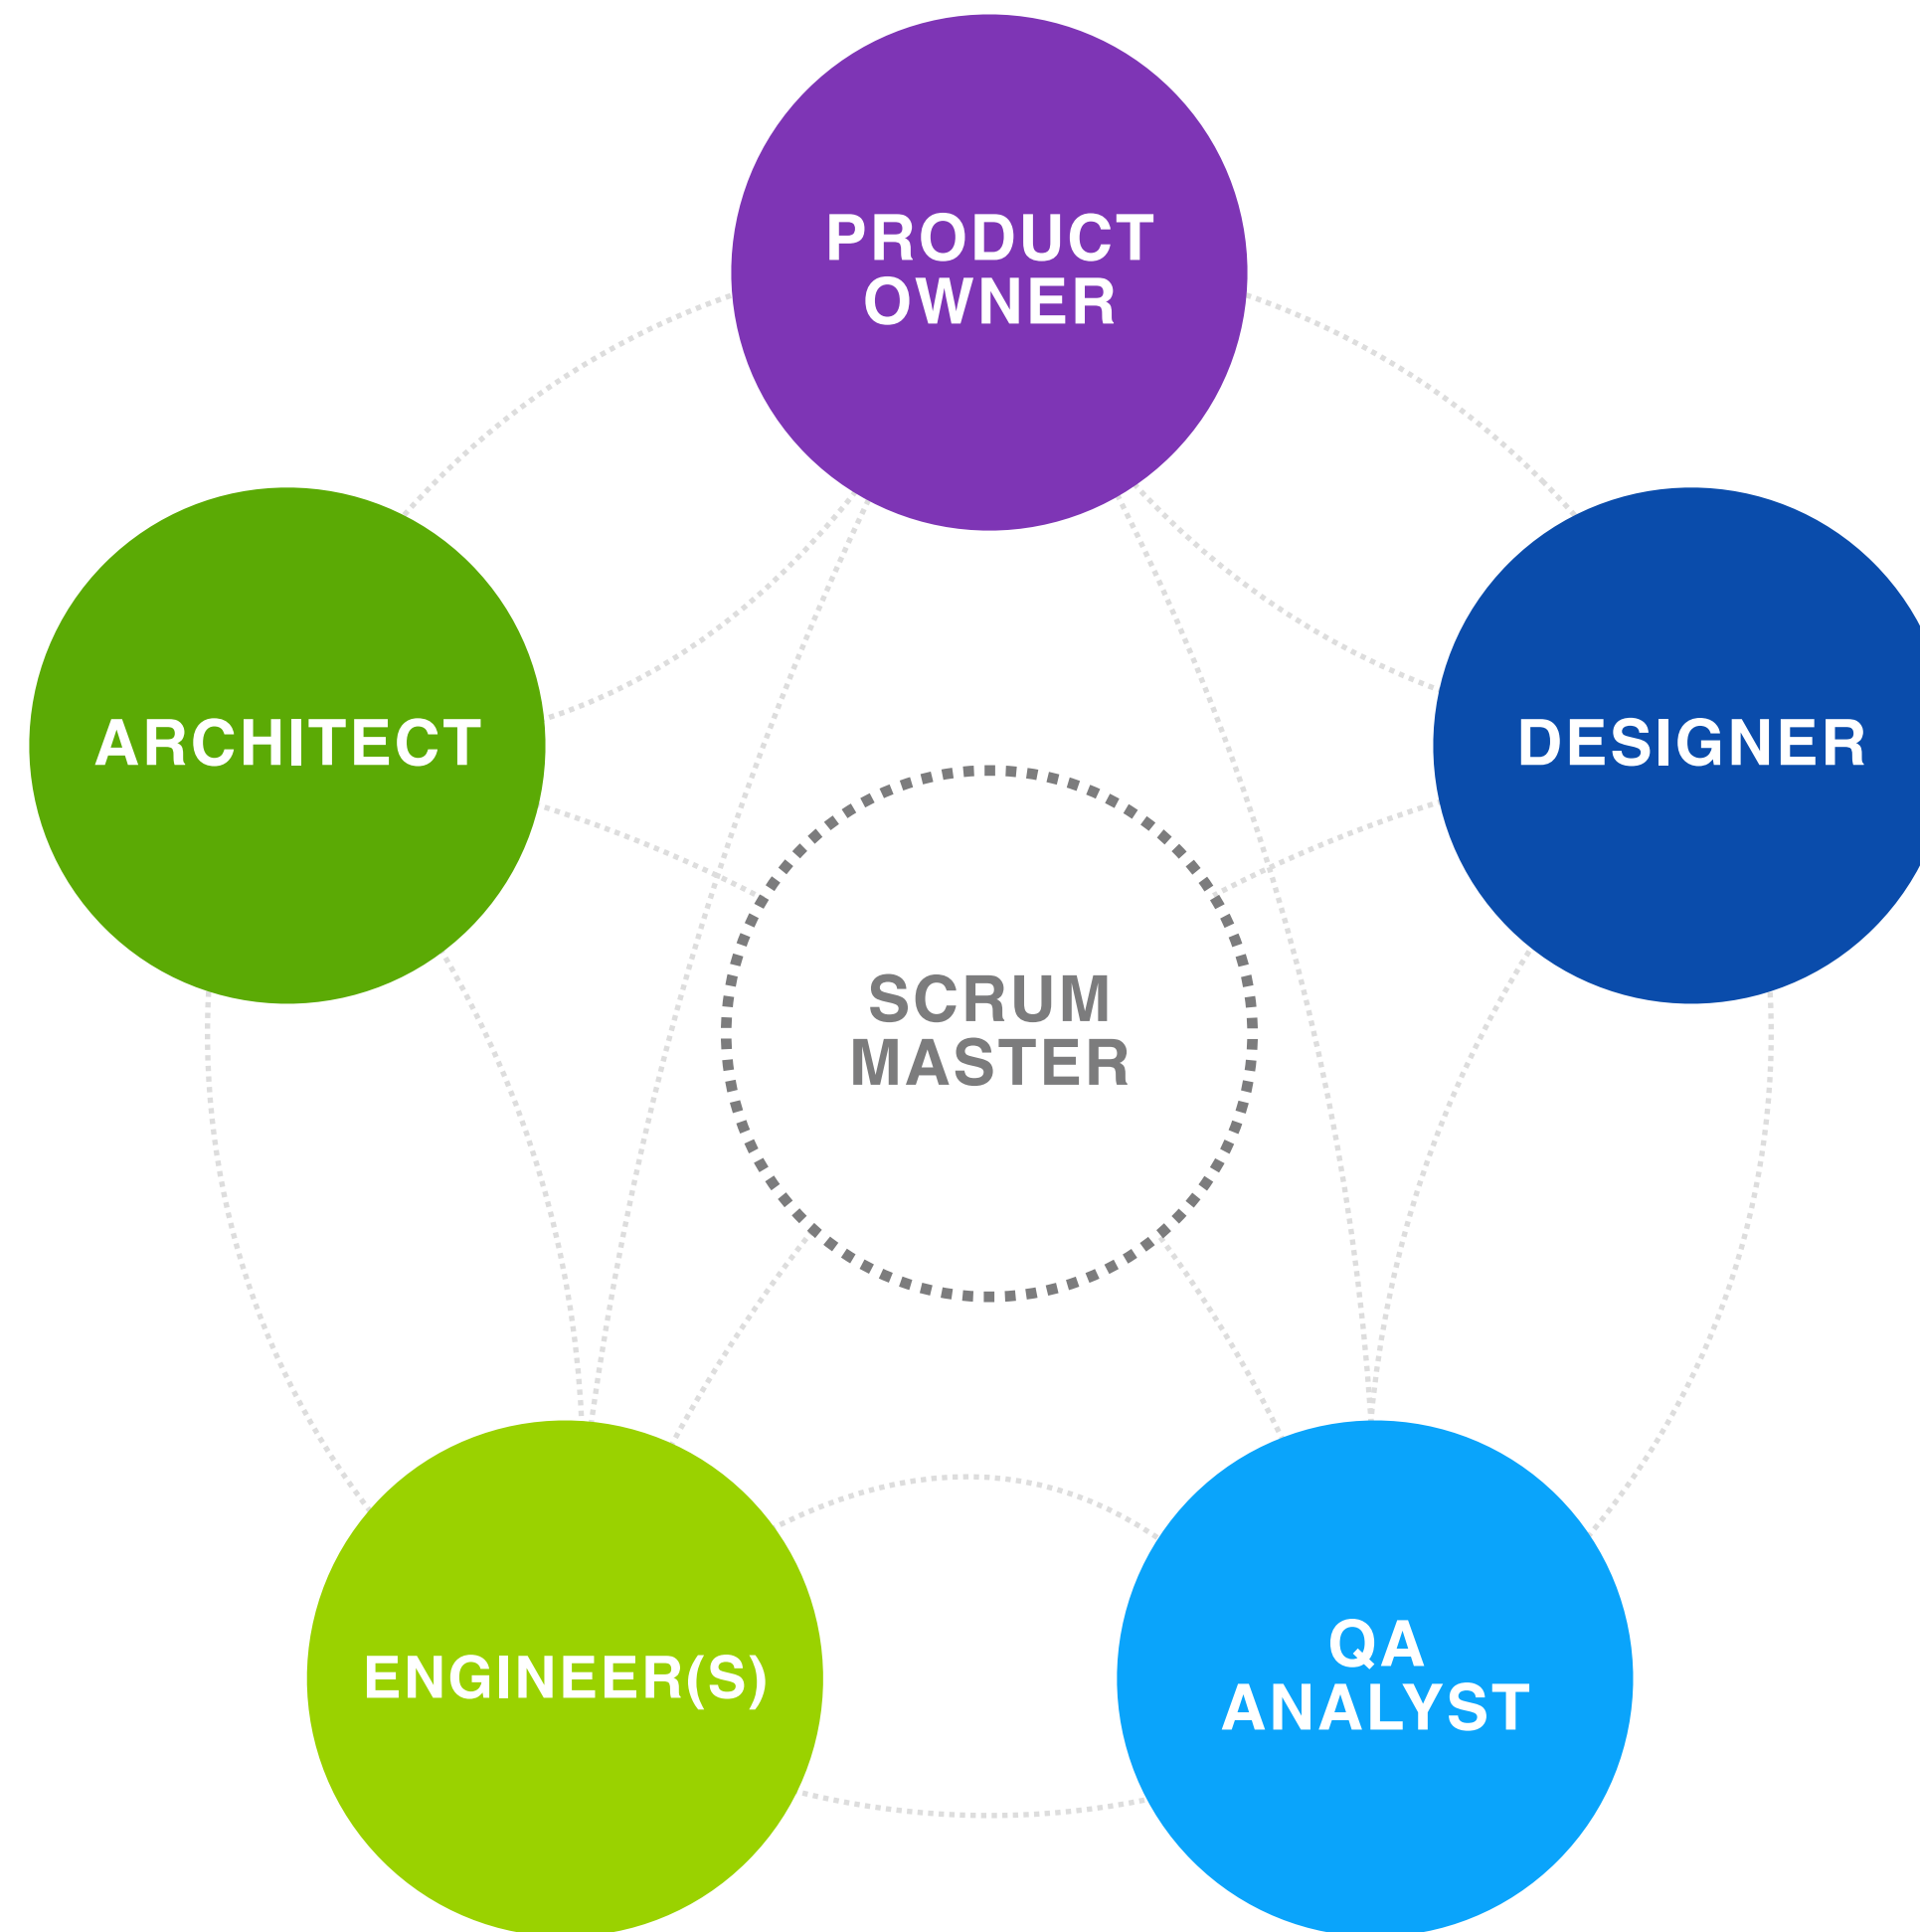

John Beck, Director of Product Design

WHAT IS PRODUCT DISCOVERY?

A period of understanding user needs and experimenting with alternative solutions in pursuit of desired outcomes.

THE PRODUCT TEAM

THE RISKS

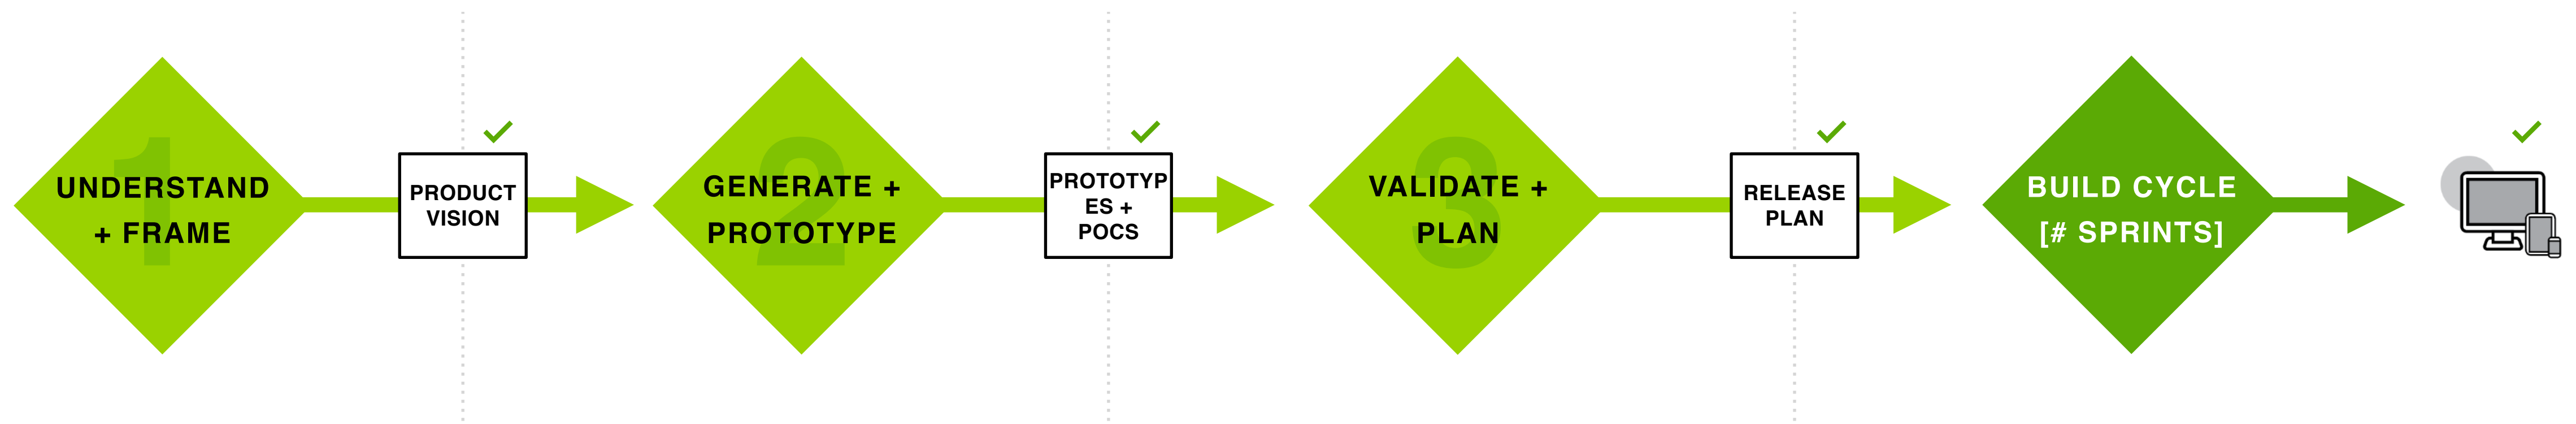

Your big idea

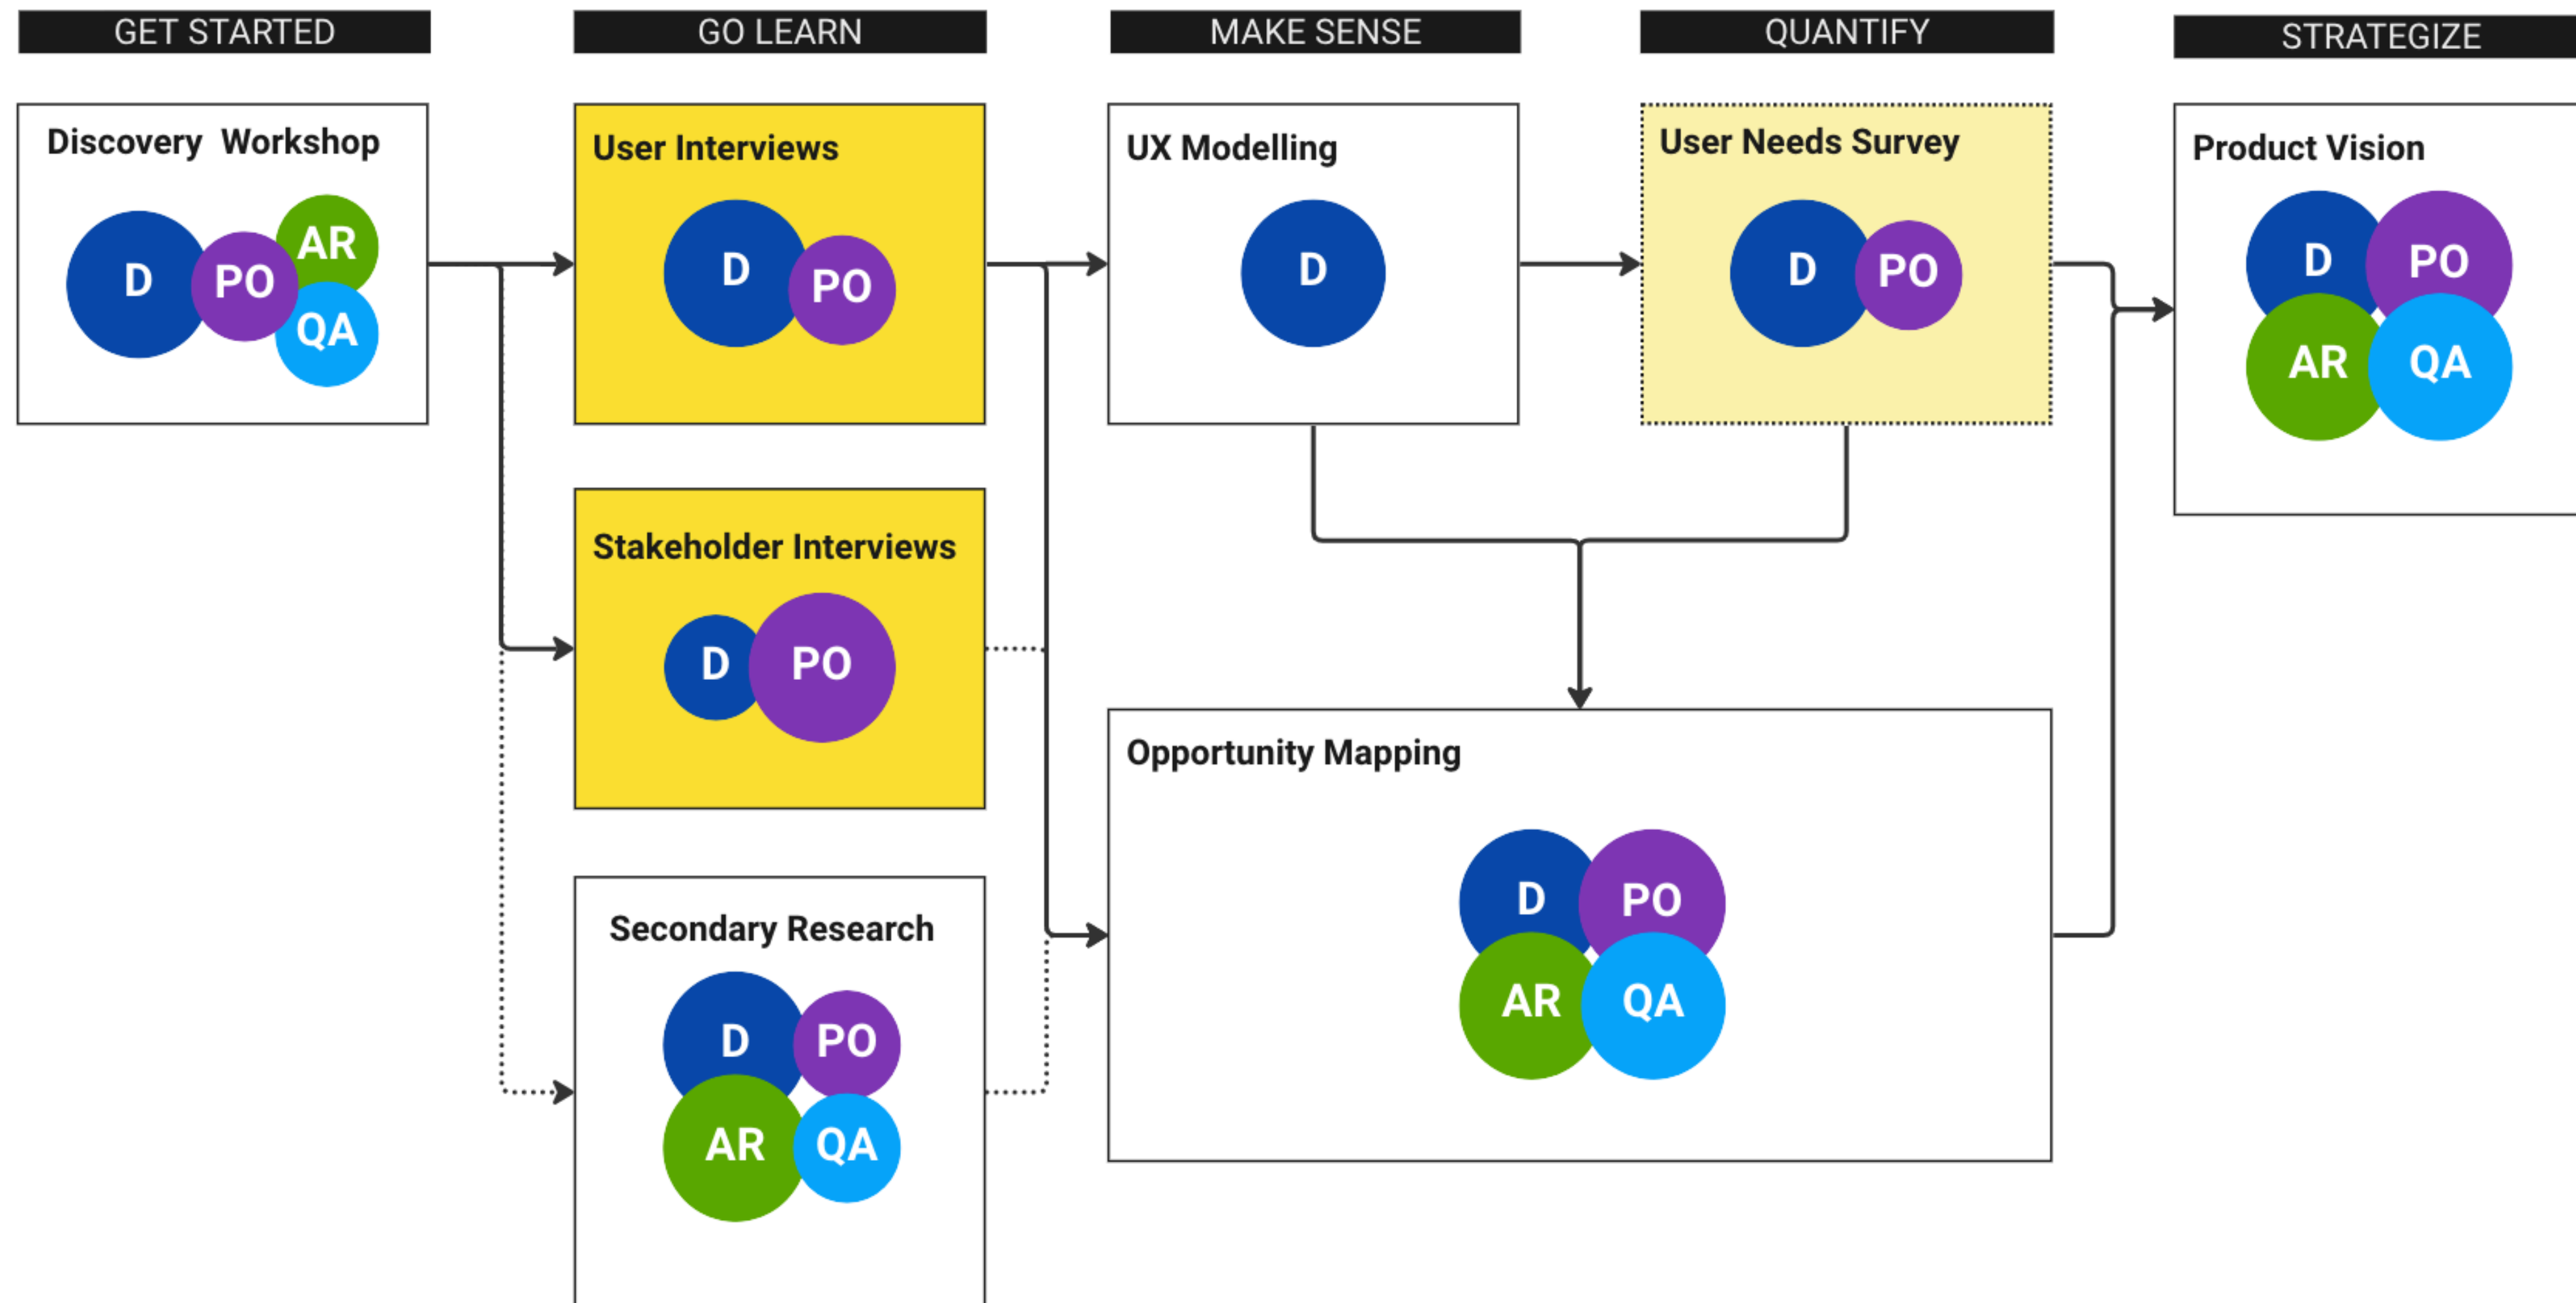

THE PROCESS

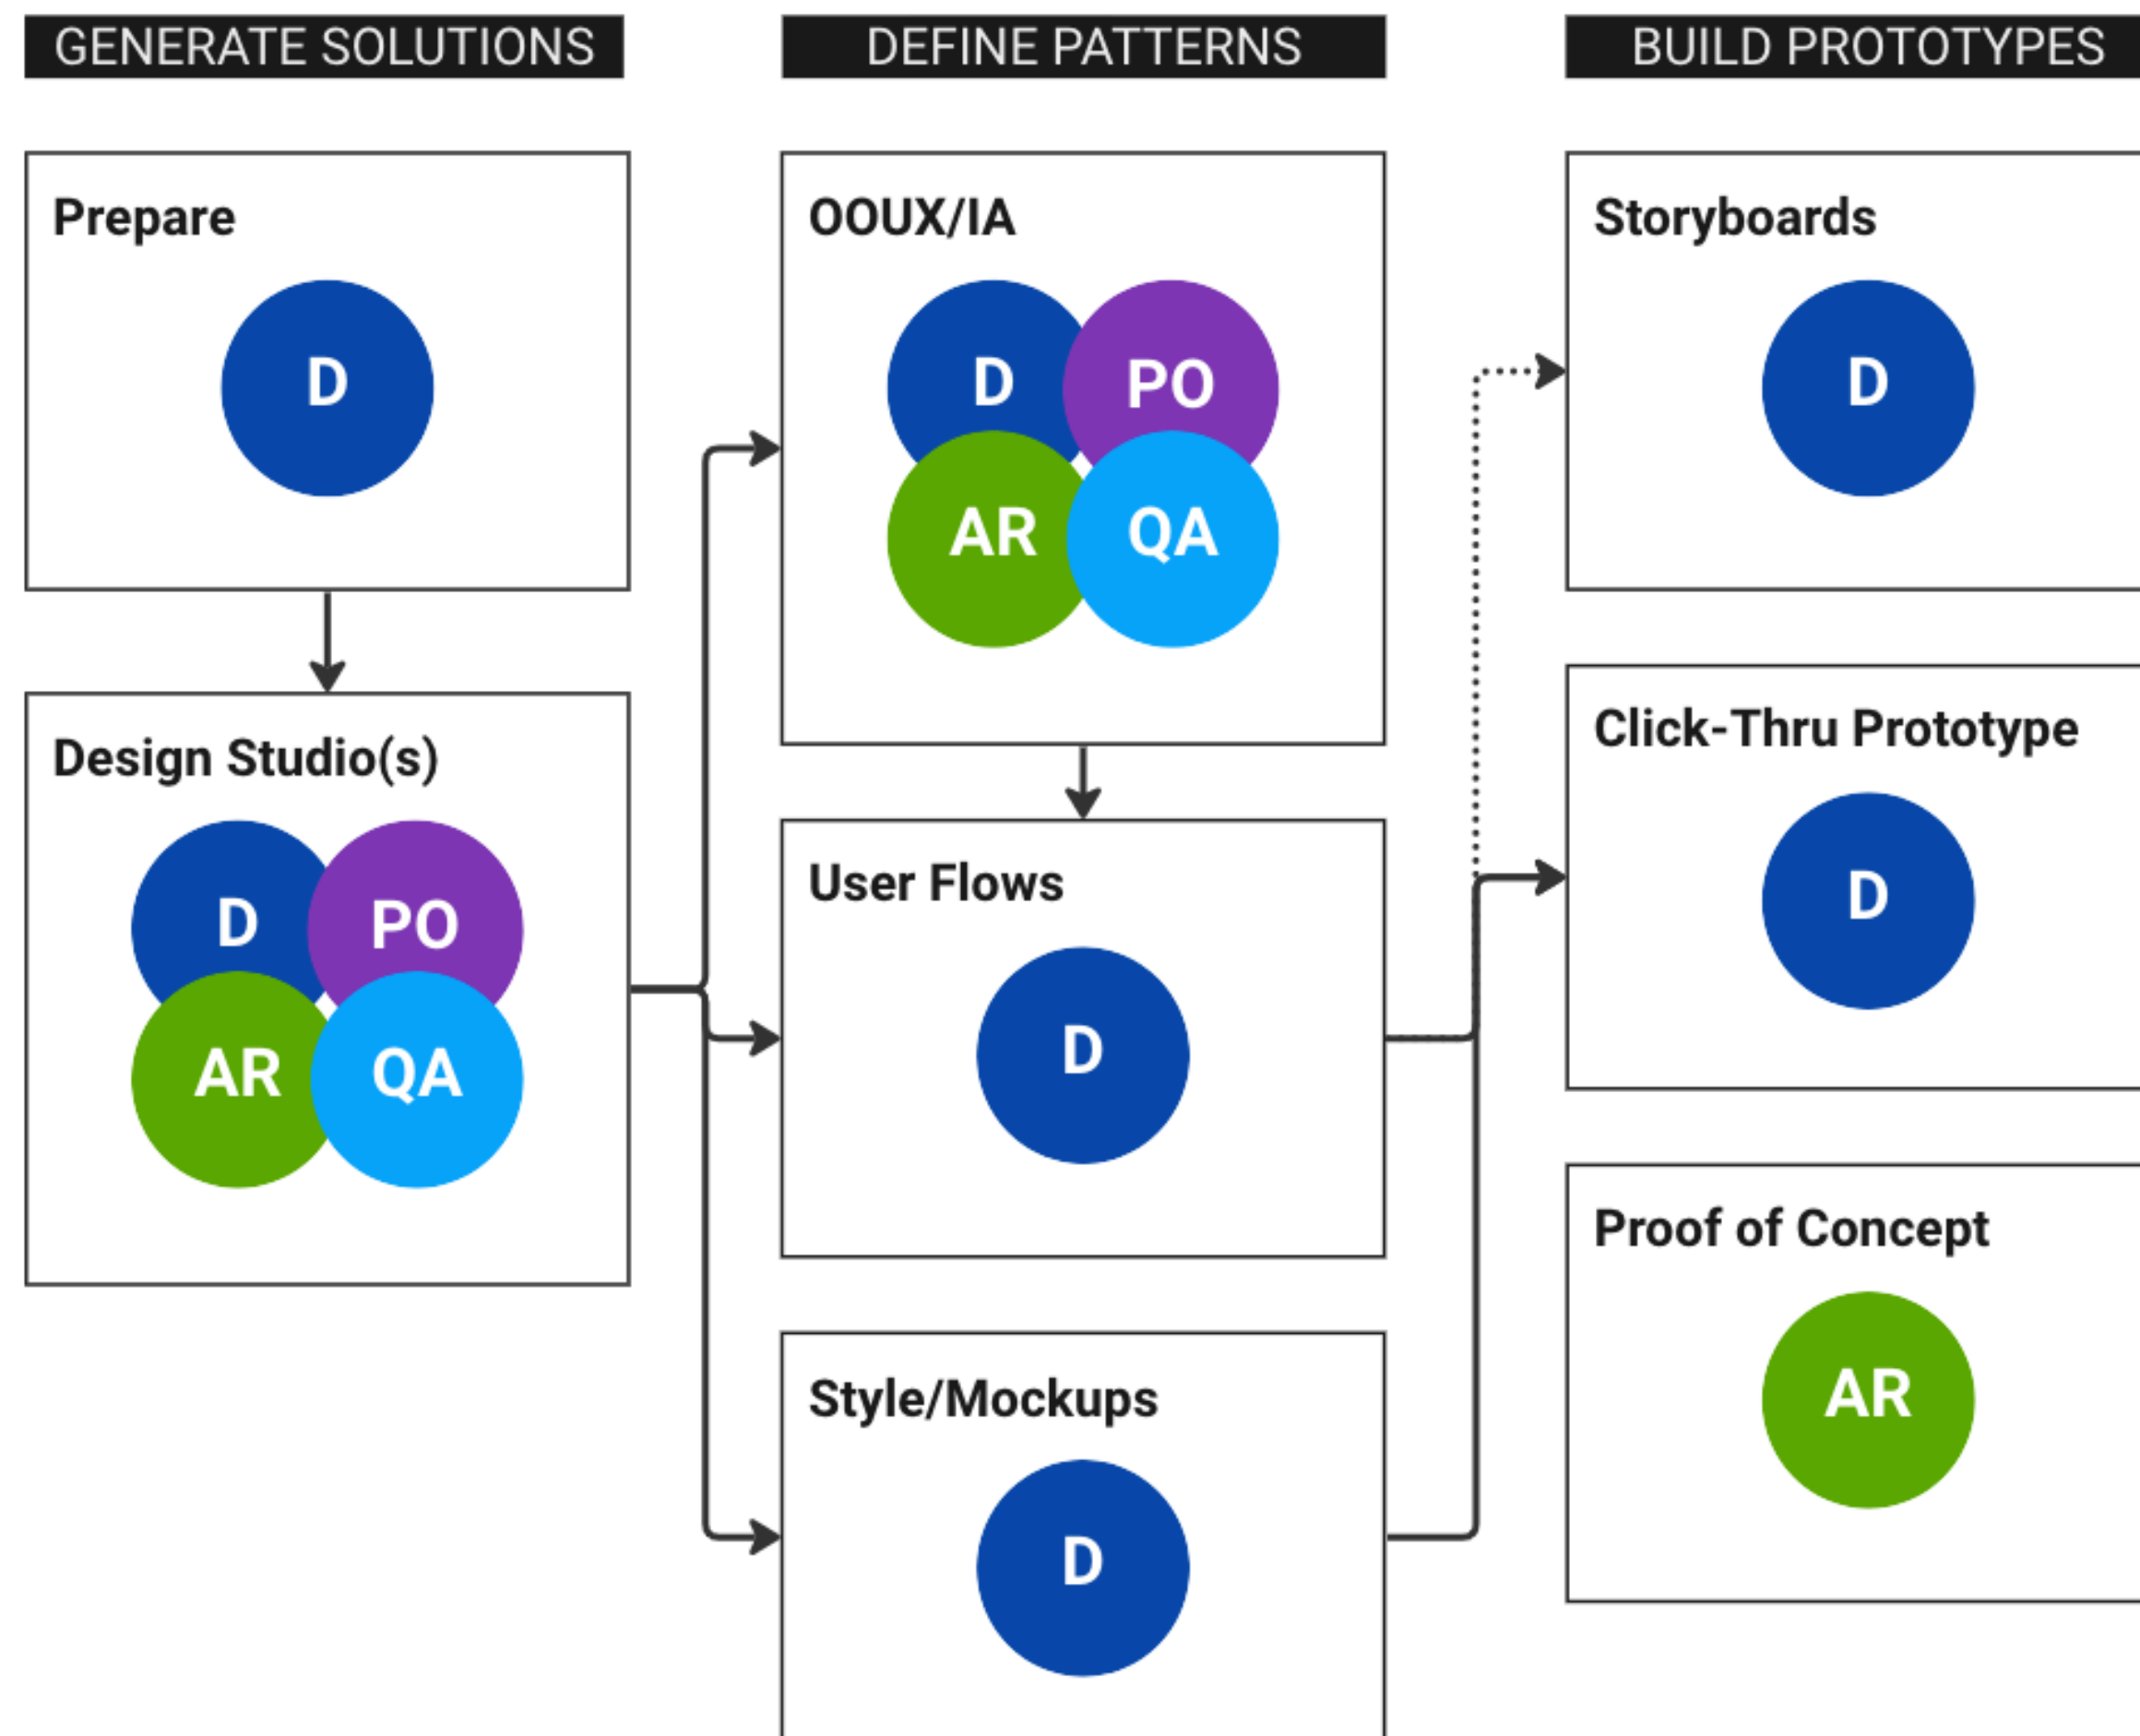

Phase

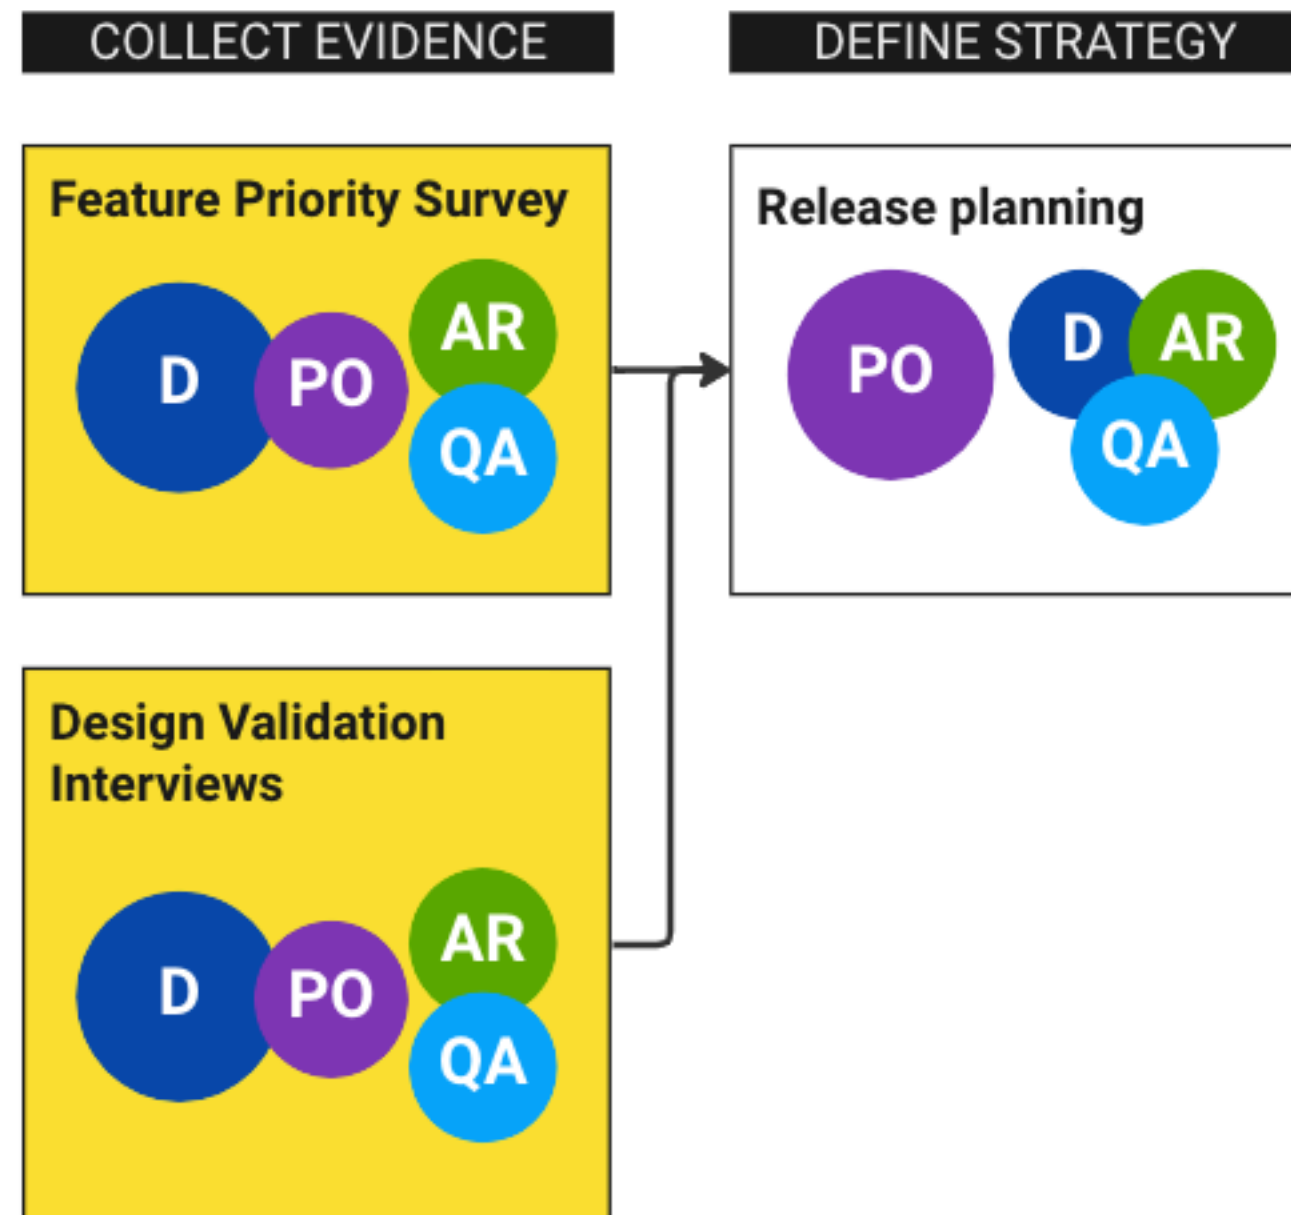

UNDERSTAND + FRAME

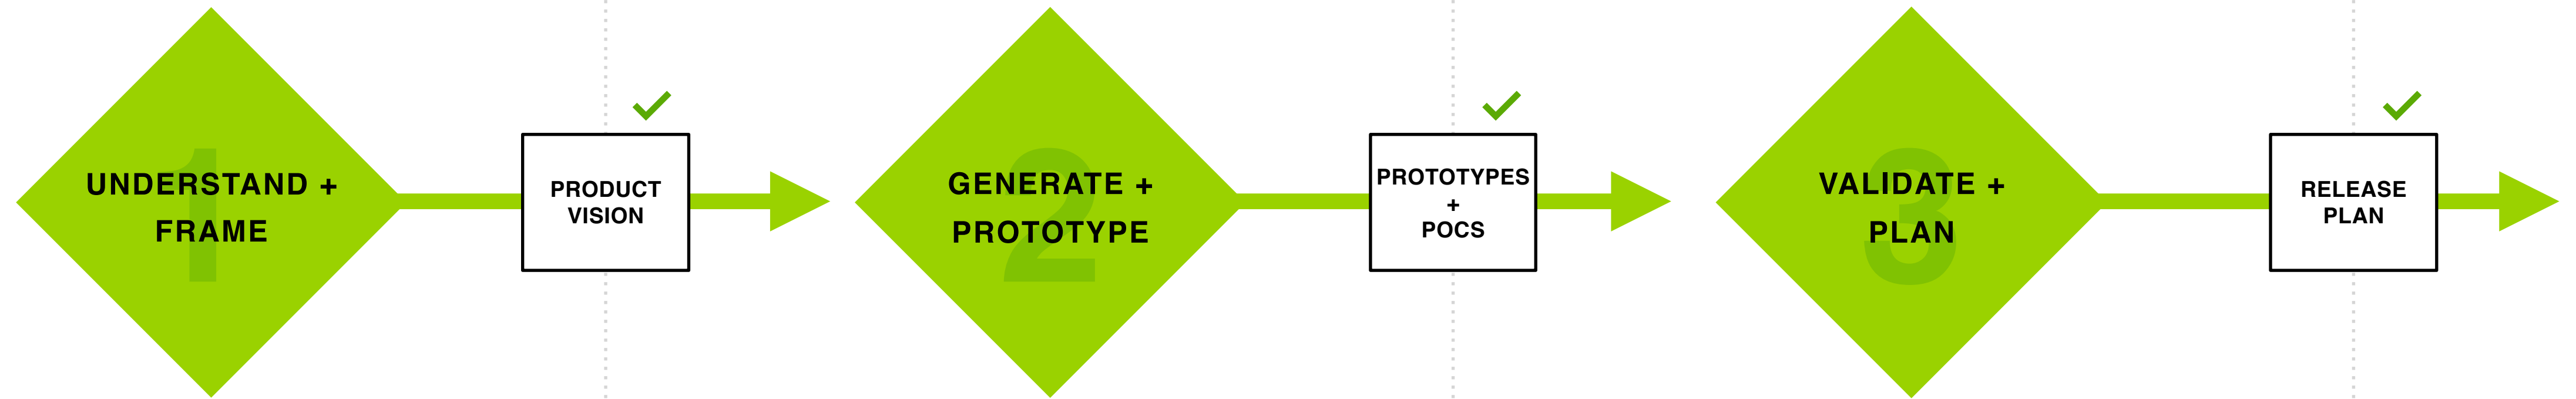

GENERATE + PROTOTYPE

VALIDATE + PLAN

LESSONS LEARNED

Start discovery by aligning around desired outcomes

Do your interviews in pairs (at minimum)

Use visual UX models to synthesize your learnings

If needed, quantify your insights with larger sample

Generate solutions alone, together

Push hard to identify alternative solutions

Focus on prototyping for critical assumptions only

Collect evidence before responding as a team

Consider tradeoffs in breadth vs depth

Use insights to inform strategic decisions
